AU10TIX BOS Service References

RiskManagementConclusionReasons.RiskManagementRemarks Property

Gets list of the Policy Management remark codes related to the processing result in the conclusion.

Namespace: Au10tix.Bos.Proxy.BosResults
Assembly: Au10tix.Bos.Proxy (in Au10tix.Bos.Proxy.dll) Version: 2508.200.0.2 (2508.200.0.2)

Syntax

C# VB C++ F#

Copy

```
public int[] RiskManagementRemarks { get; set; }
```

Property Value
Int32[]

Remarks

The following list describes Policy Management remark codes.

Code	Description
0	The Expiry date is overdue.
10	The Face comparison result has been failed.
15	The Face comparison result has been overmatched.
18	The Face comparison result has returned irregular status.
20	The ID document was detected as Entropy quality.
30	The ID document was detected as incomplete.
40	The ID document was detected with bad layout or cut.
60	The Issue date threshold rule has been exceeded.
80	The Mandatory 'Address' field is missing.
100	The Mandatory 'Birth Place' field is missing.
120	The mandatory ‘Coordinates’ field value indicates an ID/classified country location issue.
140	The mandatory ‘Coordinates’ field value indicates a picture location issue.
150	The Mandatory 'Date of Birth' field is missing.
160	The Mandatory 'Date of Expiry' field is missing.
180	The Mandatory 'Date of Issue' field is missing.
200	The Mandatory 'Document Number' field is missing.
220	The mandatory ‘EquipmentMaker’ field is missing.
240	The mandatory ‘EquipmentMaker’ field value indicates an equipment maker issue.
260	The mandatory ‘EquipmentModel’ field is missing.
280	The mandatory ‘EquipmentModel’ field value indicates an equipment model issue.
300	The Mandatory 'First Name' field is missing.

Code	Description
320	The Mandatory 'Full Name' field is missing.
340	The mandatory 'ImageCreationDateTime' field is missing.
360	The mandatory 'ImageCreationDateTime' field value indicates an image creation datetime issue.
380	The Mandatory 'Last Name' field is missing.
400	The Mandatory 'Middle Name' field is missing.
420	The Mandatory 'Nationality' field is missing.
440	The mandatory 'SoftwareUsed' field is missing.
460	The mandatory 'SoftwareUsed' field value indicates a software usage issue.
470	The 'Nationality' country code restriction rule has been activated.
480	The OCR confidence of the 'Address' field is low.
500	The OCR confidence of the 'Birth Place' field is low.
510	The OCR confidence of the 'Date of Birth' field is low.
520	The OCR confidence of the 'Date of Expiry' field is low.
540	The OCR confidence of the 'Date of Issue' field is low.
560	The OCR confidence of the 'Document Number' field is low.
580	The OCR confidence of the 'First Name' field is low.
600	The OCR confidence of the 'Last Name' field is low.
620	The OCR confidence of the 'Full Name' field is low.
640	The OCR confidence of the 'Middle Name' field is low.
660	The OCR confidence of the 'Nationality' field is low.
665	The Primary result has been changed due to liveness detection code rule in Policy Management.
670	The Remark code threshold rule in Profile Manager has been activated.
680	The 'Publicly Exposed Document' field value indicates a publicly exposed document issue.
700	The image size of the ID document is below the threshold.
720	The document was rejected because it is not in the predefined White List.
730	The document is in the predefined block list.
740	The visual text confidence of the ID document is low, please consider recapturing the image.
750	Serial Fraud Monitor risk flag of repeating document data. When there is one or more repetition value that exceeds the threshold.
760	Serial Fraud Monitor risk flag of conflicting document data. When there is one or more conflicts.
770	Serial Fraud Monitor risk flag of repeating and conflicting document data. When there is one or more repetition value that exceeds the threshold and there is one or more conflicts.
780	Proof of address: names compare do not match
820	Calculated age is higher than risk threshold
830	Calculated age is lower than risk threshold
840	Selfie estimated age is higher than calculated age

Code	Description
850	Selfie estimated age is lower than calculated age
860	Primary photo was not detected on either side
870	The unexpected image corners indicator has been activated
880	The Mandatory 'Gender' field is missing.
890	The OCR confidence of the 'Gender' field is low.
900	The 'OptionalData' field is missing.
910	The OCR confidence of the 'OptionalData' field is low.
920	Serial Fraud Monitor risk flag of Attack Info is activated for the SeenThatDocumentNumber category.
930	Serial Fraud Monitor risk flag of Attack Info is activated for the SeenThatFacePicture category.
940	Serial Fraud Monitor risk flag of Attack Info is activated for the SeenThatImageTemplate category.
950	Serial Fraud Monitor risk flag of Attack Info is activated for the SeenThatPerson category.
960	The image was detected as Black and White ID and failed Profile Manager threshold.
970	Proof of address name match rule has been activated.
980	Proof of address match rule has been activated.
990	Proof of address valid date rule has been activated.
1000	Serial Fraud Monitor customer reported risk flag match.
1010	Serial Fraud Monitor risk flag of publicly exposed matched documents.
1020	Personal information comparison status for country is 'not match'.
1030	Personal information comparison status for date of birth is 'not match'.
1040	Personal information comparison status for date of expiry is 'not match'.
1050	Personal information comparison status for date of issue is 'not match'.
1060	Personal information comparison status for document number is 'not match'.
1070	Personal information comparison status for full name is 'not match'.
1080	Personal information comparison status for personal number is 'not match'.
1085	Personal information comparison status for registry code is 'not match'.
1090	Selfie's estimated age is higher than the risk threshold.
1100	Selfie's estimated age is lower than the risk threshold.
1110	Document replay has detected an unauthorized capture type.
1120	Photo gender validation has failed.
1130	Selfie gender validation has failed.
1140	The image DPI is below the risk threshold.
1150	The cropped image height is below the risk threshold.
1160	The cropped image width is below the risk threshold.
1170	The cropped image jpeg compression is below the risk threshold.
1180	Serial Fraud Monitor risk flag of attack info is activated for seen that back side.

Code	Description
1190	Serial Fraud Monitor risk flag of attack info is activated for seen that selfie.
1200	Unauthorized country detected by reverse geocoding risk rule.
1210	Primary result has been changed because liveness check failed or was not requested.
1220	Serial Fraud Monitor risk flag of attack info is activated for seen that email.
1230	Serial Fraud Monitor risk flag of attack info is activated for seen that IP.
1240	Serial Fraud Monitor risk flag of attack info is activated for seen that phone.
1250	Serial Fraud Monitor risk flag of attack info is activated for seen that profile.
1260	Serial Fraud Monitor risk flag of attack info is activated for seen that user name.
1270	The jpeg compression of the ID document is below the threshold.
1280	Chip existence check failed.
1290	The number of repetitions within the special period detected by Serial Fraud Monitor exceeds the threshold.
1300	Driver license type check failure.
1310	Video verification mismatch.
1320	The MRZ text confidence of the ID document is low, please consider recapturing the image..
1330	Non Proof of address
1340	Document incomplete
1350	Mandatory Personal Number field is missing
1360	Ocr confidence of the Personal Number field is low
1370	PII verification did not yield a matching result
1380	Personal information comparison status for birth place is 'not match'.
1390	Personal information comparison status for mother name is 'not match'.
1400	Personal information comparison status for alternate name is 'not match'.
1410	Identified as Deepfake.
1420	Primary result changed due to VisaType check failure.
1430	More than one word in FullName ignored.
1440	The Mandatory 'Full Name Local' field is missing.
1450	The OCR confidence of the 'Full Name Local' field is low.
1460	Personal information comparison status for nationality is 'not match'.
1470	Serial Fraud Monitor risk flag of attack info is activated for seen that selfie background
1480	Injection detected in secure selfie capture
1490	Serial Fraud Monitor risk flag of attack info is activated for seen that signature
1500	Mandatory Registry Code field is missing
1510	Ocr confidence of the Registry Code field is low
